**Barnabas Board:**

Each dorm and the Faculty/Staff have a “Barnabas Board” – we are encouraging and inviting PIU as a community to encourage each other through notes ☺

**Announcements:**

If you have announcements please email Daisy by 5pm Friday and we will give them to the RAs to give to the students

“That our fellowship may be made complete...and that you may fully share our joy.”

1 John 1:3-4

This semester we are going through 1 John together as a community. RAs lead small groups through the passage, we talk about it all together at Focus on Wednesday and the girls and guys break up for in-depth Bible study on Thursday. We have been focusing on how fellowship with each other and with the Trinity cannot be separated from each other, just as Jesus cannot be separated from God or from creation. This encourages us to strive for complete fellowship and joy with each other as well as with God.

## Interview with: Ramie Rasauo

Q: What are you most excited about this semester?

A: I am most excited about my classes and that my teachers are nicer than I thought they would be!

Q: What will be your biggest challenge?

A: Tuition is what I'm most nervous about and it will be a challenge for me to find a way to pay for it. I am also nervous about exams.

Q: If you could be anyone in the world who would you be?

A: I would be myself so I can be able to stand up for myself and to show myself as a person who can be a help to our communities.

## From Daisy:

We are into our third week of the semester and things are getting busy and the days are getting shorter and shorter. The girls are all in one dorm this semester and are already getting really close. They are cranking up the music cleaning, doing homework, dancing and worshipping together. I am pumped about our Bible Study in 1 John. This week was my first week to sit and dig into the first section with my R.A.'s and three hours later we were ready for Tuesday Nights small groups. God has blessed me with a great bunch of girls who are spiritually hungry. This is a great thing but carries much weight in that these girls want to go deep into the Word. This will mean that I could use lots of extra prayer and time management is critical!

## Interview with: Lian Stae

Q: What are you most excited about this semester?

A: I am excited about having so many new faces on campus and the excitement of being in fellowship with everyone encourages me as a leader.

Q: What will be your biggest challenge?

A: Finding time to build community, helping people walk with Jesus and being an example are things that I am nervous about and that I think will be my biggest challenge.
